The Central Alberta Child Advocacy Centre is a newly emerged not for profit organization located in Red Deer, AB that works in an integrative partnership with the Central Region Child Services, Alberta Health Services, Alberta Justice, Alberta Education, Central Alberta Sexual Assault Support Centre and the RCMP to better service children, youth and families impacted by sexual abuse and the most serious/complex cases of physical abuse and neglect.

The CAC opened our doors on November 29, 2017 to begin providing services to children, youth and families. We have embarked on a capital campaign to build a new Centre by 2020, located on Red Deer College main campus, that will provide the infrastructure and foundation for what we envision will eventually become a center that is open to all members of the community that have been affected by trauma.

MULTI-DISCIPLINARY TEAM (MDT) includes:

- RCMP
- Alberta Health Services Acute Care
- Alberta Health Services Mental Health and Addictions
- Children's Services
- Alberta Education
- Alberta Justice

We are also in close partnerships with the Central Alberta Sexual Assault Support Centre and Red Deer College.
