

calgary & area child advocacy centre

Founded in 2013. The Calgary and Area Child Advocacy Centre (CCAC) is a non-profit organization that, together with our partners, is taking a leadership role to advance the way our country understands and addresses child abuse. We work with our partner organizations to provide wrap-around services to assess, investigate, intervene, and support survivors of child abuse while bringing offenders to justice. Our team focuses on the most complex, severe, and urgent 15% of cases. This helps ease the workload for front-line service providers who support the other 85% of child intervention cases in Calgary and the surrounding communities.

Address:
