Key Contact person	Debby Hamilton		

North Okanagan Child Advocacy Centre Project is a multidisciplinary team of justice and social welfare responders that provide a holistic, seamless support and service to children, youth and their families affected by crime, trauma or abuse. This end is achieved firstly, through relationships and collaboration and secondly through mutual training and protocol development. Plans include hiring a Child Advocate to assist the young person to navigate services and creating a Centre for service and justice to provide “in reach” services.
