

PrévAction

Cornwall, Ontario

PrévAction is an organization of community leaders created in 2006 to study, research, analyze, and propose to the Cornwall Public Inquiry (CPI) all possible best healing and reconciliation strategies, programs, and outcomes for Cornwall and area to assure that the community would move forward positively in the aftermath of the Cornwall Public Inquiry. PrévAction's recommendations to the CPI included the creation of a Child & Youth Advocacy Centre (CYAC). A CYAC subcommittee composed of community members directly involved in the provision of services to child and youth victims of abuse and their families was created and has since been actively developing a comprehensive business plan for the implementation of a CYAC for Cornwall, the Counties of Stormont, Dundas & Glengarry and Akwesasne.
